

Job Description

The Texas Real Estate Research Center is seeking a Graduate level Student Research Assistant to contribute to our research team.

In this role, you will be responsible for analyzing data, writing periodic reports such as the Texas Housing Insight and Outlook for the Texas Economy, and creating presentation materials, including charts for both our website and researchers.

Responsibilities

- Analyze both time series and cross-sectional data
- Provide either ad hoc or recurring written reports as needed
- Assist Research Economist to co-author article about economic, demographic, and/or housing market trends in Texas
- Other duties as assigned

Required Skills and Education

- Master's level student currently in economics or real estate related program
- Proficient in R and/or Python for both analysis and basic data processing
- Able to communicate effectively, orally and in writing
- Able to plan, prioritize, and organize work
- Able to complete projects on time
- Able to demonstrate good judgment, teamwork, and leadership
- Able to multi-task and work cooperatively with others

Preferred Skills & Availability

- Proficient in Tableau and/or Microsoft Excel
- Availability to work during Summer months

Learning Outcomes

- The successful candidate will demonstrate proficiency in data analysis, effective written communication, and the ability to create compelling data visualizations

Pay Scale & Availability

- \$12.00 - \$14.00 per hour based on experience
- 15- 20 hours per week, variable

Interested applicants should send a cover letter and resume to Brittany Morales, bmorales@tamu.edu. Please visit www.recenter.tamu.edu for more about the Center. Candidates will be asked to submit three references and complete a criminal background check.
