Forthcoming Monograph

American Caudillo: Between Populism and Democracy in the Americas

Under contract, Oxford University Press

(Heretical Thought Book Series; expected 2021).

The book addresses the contemporary crisis of democracy in the Americas using a model of populism developed through Comparative Political Theory (Latin American Thought and Machiavellian Thought). It examines populism in the US as part of a wider Western-Hemisphere brand that is distinct from that of European populism or other extant theoretical models. It provides ways to address the new forms of populism.

The Evo Morales Experiment: The Birth of a New Era in Bolivian Politics.

Palgrave Press, expected 2020. Edited with an Introduction by Diego von Vacano.
